

Training

MDC will provide multiple virtual training classes to train end users on how to access, navigate, and interpret CPC+ Dashboards. Sessions will be recorded and made available online.

The intended audience for these sessions include Physician Organization and Practice staff. All PO's and Practices, regardless if a signed DUA is in place, can attend training. **Click on the link in the Method column to register.**

MDC will work individually with PO and Practice personnel to assist in accessing and answering specific questions on the CPC+ Dashboards.

Session	Date/Time	Duration	Method	Course/Description	Trainer
